

TO OUR VALUED CUSTOMERS

Since 1981, family owned and operated Irvine Pipe and Supply, Inc. has strived to continually add quality products to our inventory and provide customer service that can't be matched. We now stock well over 10,000 products from the industries' leading manufacturers.

In this day and age of "big box stores", we take pleasure in giving you the type of service that you thought had long since disappeared.

Please give one of our knowledgeable sales people a call to discuss you project needs. We are happy to fill your requirements from our extensive stock or special order material requests for you. Just tell us when you need it!

Come on by, grab a cup of coffee and a bag of popcorn and let us show you what we're all about.

We appreciate your business!

Dave Ashton and Ken Ashton
